**FOREIGN FISHING AGREEMENT**

*between*

**THE NATIONAL OCEANIC RESOURCE MANAGEMENT AUTHORITY**

*and*

---

The National Oceanic Resource Management Authority (“Authority”), on behalf of the Federated States of Micronesia (“FSM”), and \_\_\_\_\_, (“Company”), desirous of establishing terms and conditions pertaining to the Company’s utilization of fisheries resources within the Exclusive Economic Zone of the Federated States of Micronesia (“EEZ”), have agreed as follows:

**I. GENERAL PROVISIONS**

1. The Company acknowledges and accepts that:

(a) The sovereignty of the Federated States of Micronesia extends to its internal waters and Territorial Sea, including sovereign rights over the living and non-living resources in the Territorial Sea and internal waters and in the airspace above the Territorial Sea and internal waters as well as its bed and subsoil;

(b) Within the EEZ the National Government of the Federated States of Micronesia has sovereign rights for the purpose of exploring and exploiting, conserving and managing the natural resources, whether living or non-living, of the waters superjacent to the seabed and of the seabed and its subsoil, and with regard to other activities for the economic exploitation and exploration of the zone; and that

(c) The FSM has exclusive fishery management authority within the EEZ.

2. The Company agrees to comply with the Harmonized Minimum Terms and Conditions for Foreign Fishing Vessel Access as set forth in Attachment 1.

3. The Authority agrees to permit fishing within the EEZ by the Company’s longline fishing vessel in good standing on the South Pacific Forum Fisheries Agency Regional Register of Foreign Fishing Vessels (“Regional Register”) up to a maximum of \_\_\_\_ longline fishing vessels. In the event that the Authority learns, through consultations with competent regional scientific authorities or bodies, that there is a

serious threat to the fish stocks in the waters of the FSM, the Authority will provide sufficient advance notice to the Company that the Authority may need to take preventive conservation management steps to preserve the stocks. If the Authority then decides that it is necessary for the preservation of the stocks to limit or close access to the FSM EEZ, or portions thereof, the Company agrees to comply immediately with instructions provided by the Authority. In such an event, appropriate access fees shall be refunded to the Company on a pro rata basis for the time remaining on the Agreement.

## **II. PERMITS FOR AUTHORIZED VESSELS**

4. The Company's longline fishing vessel authorized to fish in the EEZ pursuant to this Agreement shall hereinafter be referred to as "Authorized Vessel." Where used in this agreement, the term "Authorized Vessel" also includes the "operator" of the vessel as defined in Title 24 of the FSM Code. The Authorized Vessels may engage in fishing in the EEZ only as permitted under the terms of this Agreement. 5. A permit will only be issued by the Authority upon receipt and approval of a completed application in the form set forth in Attachment 2, and, including without limitation upon payment of all fees required by this agreement and documentation establishing ownership of the vessel and verification of insurance as required by this Agreement. The Authorized Vessel shall pay an application fee of US \$\_\_\_\_, which fee is not refundable and shall accompany the application.

6. Each Authorized Vessel shall be required to have an original permit issued by the Authority, except as provided in Paragraph 4. Permits may not be transferred among or between vessels or owners of vessels.

7. The Company shall pay an access fee of US \$\_\_\_\_\_ per authorized vessel for a one-year permit or \$\_\_\_\_\_ per authorized vessel for a three-month permit. The Company warrants that at the time of submitting an application for a foreign fishing permit for each longline vessel that each longline vessel is in good standing on the Regional Register. This Agreement and the fee set forth herein are based upon the size and capacity of the longline fishing vessels. The Company shall not significantly increase the size or capacity of any of the longline fishing vessels during the term of this Agreement without the written consent of the Authority. There shall be no refund or prorating of the access fee described in this paragraph once the Agreement goes into effect except as specifically authorized by this Agreement

(a) Provided that Authorized Vessels meet the requirements of this Agreement and are in good standing on the Regional Register and the regional Vessel Monitoring System (VMS) at the time the Agreement goes into effect, the Authority agrees to issue permits to such fishing vessels; provided however, during the term of this Agreement, should any of the Authorized Vessels be removed from good standing on the Regional Register, the Authority may revoke or suspend the permit of such vessel forthwith.
